

# MAIZE FOOTBALL & CHEER

Dear Sponsors',

Our mission at Maize Football and Cheer is to provide a safe, fun learning environment for the youth of our community. We strive to create an opportunity for children to work together as a team and achieve common goals. We emphasize sportsmanship, teamwork, respect for others and appreciation of opportunities. The coaches will help to build and develop good life skills through the child's participation in all activities exposed to throughout the season.

While the kid's priorities may be mastering the fundamentals, hitting a back flip or scoring a touchdown in the next game, the parents face the stress and worry of covering costs for their child to participate when the financial support for extracurricular activities is not readily at their disposal. Last year, several of our student athletes would not have had the opportunity to participate with this organization if sponsors had not provided the us with very generous donations.

Children yearn to participate in sports activities in hopes of making themselves, their families, friends and community proud of their achievements. We need companies and individuals, like yourself, within our community to support and uplift our children aspirations. We hope you and/or your company consider playing a role by offering the athletes/families some financial assistance through your donations to have an opportunity to participate with our organization when they may not otherwise have the means to do so themselves. With your support, our organization commits to investing in the future of our children.
